MONTHLY DIGEST OF STATISTICS

No. 296

AUGUST 1970

1. This Digest has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

2. The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

3. The figures in the Digest are mainly totals for calendar months or monthly averages.

4. Some of the figures included in this Digest are provisional only and may be revised in later issues.

Definitions

5. A *Supplement of Definitions and Explanatory Notes*, published with the January issue, gives detailed definitions of all the terms and units used in the Digest.

6. The following general definitions should be noted in using the Digest:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Units of measurement.

Ton = long ton of 2,240 lb.

Gallon = imperial gallon.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are normally defined in detail in the *Supplement to the Digest*. Figures of consumption and stocks are seasonal and

should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

7. *Symbols.* The following symbols are used throughout:

.. not available.

— nil or less than half the final digit shown.

* average (or total) of five weeks.

8. *Change of basis.* A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

9. *Rounding of figures.* In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Change in content

10. *Balance of payments.* The accounts are shown in a new form (Tables 137-139) based on the presentation published in *United Kingdom Balance of Payments 1970* (HMSO) September 1970.

Central Statistical Office,

CONTENTS

	Table	Page
I. National income and expenditure		
Expenditure on the gross domestic product	1	4
Factor incomes in the gross national product	2	5
Index numbers of output at constant factor cost	3	6
Personal income, expenditure and saving	4	7
Consumers' expenditure	5	8
Value of physical increase in stocks and work in progress	6	9
Gross domestic fixed capital formation	7	10
Fixed capital expenditure in manufacturing industry	8	12
Fixed capital expenditure in the distributive and service industries	9	13
II. Population and vital statistics		
De facto or home population	10	14
Age distribution of the population	11	14
Births, marriages and deaths registered	12-13	15
III. Labour		
Distribution of working population	14	16
Employees in employment: All industries	15	17
Employees in employment: Index of production industries	16	18
Civil Service: Non-industrial staff	17	20
Civil Service: Industrial staff	18	21
Numbers employed in agriculture	19	21
Constructional work: Operatives employed by contractors	20	22
Overtime and short-time worked by operatives in manufacturing industries	21	22
Registered unemployed	22-27	23
Employment vacancies filled and unfilled	28	27
Industrial stoppages	29	28
IV. Social services		
National insurance and family allowances	30	29
Supplementary benefits: pensions and allowances	31	30
National health service	32	31
V. Agriculture and food		
Crops and grass: Area and harvest	33	32
Livestock, pigs and poultry on agricultural holdings	34-35	33
Production, disposals and stocks of principal foods and feedingstuffs	36-44	34
Tobacco	45	40
Alcoholic drinks	46	41
Estimated household food expenditure and consumption in Great Britain	47	42
VI. Production, output and costs		
Index of industrial production	48	44
Output per head	49	46
Indices of home costs and labour costs	50	48
VII. Fuel and power		
Coal: production, consumption and stocks	51-55	49
Coke: production, disposals and stocks	56	53
Production of gas	57	54
Generation of electricity	58-59	55
Petroleum and petroleum products	60-65	57
VIII. Chemicals		
Fertilizers	66	60
Sulphur and sulphuric acid	67	61
Synthetic dyestuffs, colours, paint and varnish	68	62
Synthetic resins and plastics materials	69	63
Other miscellaneous products	70	63
IX. Metals, engineering and vehicles		
Iron and steel	71-73	64
Non-ferrous metals	74-75	66
Mechanical and electrical engineering products: deliveries	76	67
Mechanical, instrument and electrical engineering industries: deliveries, orders on hand and net new orders	77-81	68
Electrical products	82-84	73
Radios, radiograms and television sets	85	75
Vehicles	86-88	75
Merchant shipbuilding	89-90	78

X. Textiles and other manufactures

Textiles	91-94	80
Hosiery and footwear	95-96	82
Timber and paper	97-100	83
Rubber and other manufactures	101-103	86

XI. Construction

Industrial building in Great Britain	104	88
Constructional work: Output and new orders	105-106	89
Building materials and components	107	91
Permanent housing	108-109	92
Educational building in Great Britain	110	94

XII. Retailing and catering

Index numbers of retail sales and stocks in Great Britain	111	96
Index numbers of turnover in the catering trades	112	97

XIII. Transport

Road and rail transport	113-119	98
Civil aviation	120	103
Merchant shipping	121-122	105
Passenger movement by sea and air	123-124	106

XIV. External trade

Value and volume	125-127	108
Analysis by source and destination	128-129	111
Imports and exports of selected commodities	130-136	113

XV. Overseas finance

Balance of payments	137-139	117
Reserves and net liabilities in sterling and in other currencies	140	118

XVI. Home finance

Consolidated Fund and National Loans Fund	141-142	119
Central government Net balance	143	120
Inland Revenue and Customs and Excise duties	144	121
Bank of England	145	122
London clearing banks and Scottish banks	146-147	123
Bank clearings and currency circulation	148	125
Bank advances	149	126
Capital issues and redemptions	150	128
Discount market	151	129
Hire purchase and other instalment credit	152	129
National savings	153	130
Security prices and yields	154	131
Bank rate	155	131

XVII. Wages and prices

Average earnings and hours worked	156-159	132
Indices of wages rates and normal weekly hours	160-161	136
Changes in basic weekly wage rates	162	138
Import and export unit value index numbers; tramp shipping freights	163	139
General index of retail prices	164-165	140
Index numbers of wholesale prices	166	142
Index numbers of agricultural prices	167	144

XVIII. Entertainment

Broadcast receiving licences, cinemas and gramophone records	168	145
--	-----	-----

XIX. Weather

Temperature, rainfall and sunshine	169	146
--	-----	-----

Alphabetical index		147

(¹) Equals total final expenditure on goods and services at market prices less imports of goods and services less taxes on expenditure plus subsidies. Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 3.

(²) This represents taxes on expenditure less subsidies valued at constant rates.

(¹) The figures for June 1964(a) and the corresponding figures for earlier months are not strictly comparable with those for June 1964(b) and later months which, for Great Britain, are on the revised basis of calculation (see pages 110-112 of the March 1966 issue of the *Ministry of Labour Gazette*.)

(²) Between June 1966 and June 1967 the industrial classifications of many establishments in Great Britain were corrected. The estimates for June 1967 take account of these reclassifications and the figures for individual industries are therefore not comparable with those published for previous mid-years. Two sets of estimates are given for June 1966 i.e. (a) excluding the effects of reclassifications (for comparison with earlier estimates) and (b) including the effects of reclassifications (for comparison with subsequent estimates).

(³) Estimates for June 1969(a) are classified according to the Standard Industrial Classification (1958) and are not fully comparable therefore with the estimates for June 1969(b) which are classified on the basis of the Standard Industrial Classification (1968).

(⁴) The industries included in the index of production are Orders II-XVIII of the Standard Industrial Classification (1958) and Orders II-XXI of the Standard Industrial Classification (1968).

(⁵) Owing to reclassification, figures for 1963 are not strictly comparable with those from 1964 onwards. See page 59 of the February 1965 issue of the *Ministry of Labour Gazette*.

(¹) Figures after June 1969 are provisional being subject to revision after the count of national insurance cards at mid-1970.

(²) The Order Groups of the Standard Industrial Classification are presented in the format of the Standard Industrial Classification 1968. However, estimates for June 1969 (a) and earlier months are classified according to the Standard Industrial Classification (1958) and are not fully comparable therefore with the estimates for June 1969 (b) and later months which are classified on the basis of the Standard Industrial Classification (1968). The industries included in the Index of Production are Orders II–XVIII of the Standard Industrial Classification (1958) and Orders II–XXI of the Standard Industrial Classification (1968).

(1) Established and unestablished staff, excluding employees of the Northern Ireland Government. In arriving at the totals two part-time workers are counted as one whole-time worker.

(2) Including the Department for National Savings (15,300) and the Ministry of Posts and Telecommunications (355) from 1 October 1969.

(3) Casual or seasonal staff recruited for periods normally of less than six months. These are included in the total and other columns.

(4) Became a public corporation on 1 October 1969.

(5) Ministry of Social Security before November 1968.

(6) Ministry of Labour up to May 1968.

(7) Ministry of Aviation up to January 1967. In February 1967 the functions of the Ministry of Aviation were taken over mainly by the Ministry of Technology (which was formed in October 1964).

(8) In July 1966 certain staff of the Ministry of Aviation were transferred to the Board of Trade.

(9) Including the Ministry of Technology up to January 1967, and Ministry of Health up to October 1968.

Note: Figures after June 1969 are provisional and may be revised after the final figures for the mid-1970 count of national insurance cards become available.

⁽¹⁾ Orders III-XVI of the Standard Industrial Classification (1958) and orders III-XIX of the Standard Industrial Classification (1968).

⁽²⁾ Figures relate to establishments with more than 10 employees in all manufacturing industries except shipbuilding and ship repairing. ⁽³⁾ Excluding maintenance staff.

⁽⁴⁾ Figures from July 1969 have been revised to take account of the information obtained from the results of the mid-1969 count of national insurance cards and have also been revised from June 1969 to take account of the assumption that operatives stood off by an employer for the whole week have been on short-time for 40 hours (formerly 42 hours) each.

⁽¹⁾ Including ex-service men and women and other registered unemployed persons aged 18 years and over not classified to an industry. Registered unemployed school-leavers (i.e. persons under 18 not in full-time education who have not yet taken up employment) are excluded.

⁽²⁾ Based on the January to May figures (1958 S.I.C.) and the June to December figures (1968 S.I.C.).

⁽³⁾ The method of seasonal adjustment has been revised and details of this are given in the April issue of the *Employment & Productivity Gazette*.

(¹) Stoppages involving fewer than 10 workpeople or lasting less than one day have been omitted except any in which the total number of working days lost exceeded 100. The figures for 1970 are provisional.

(²) From January 1970 the analysis by industries is based on the *Standard Industrial Classification 1968*. Figures prior to that date are based on the *Standard Industrial Classification 1958*.

(³) Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

(⁴) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

(1) Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month.

(2) Including prescribed industrial disease.

(3) Yearly figures are averages of twelve monthly figures.

(4) These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in employment.

(5) Yearly figures are averages of quarterly figures. Quarterly figures relate to first Monday in February, May, August and November.

(6) Including a diminishing number of widows with pensions of 30s. a week derived from the old Contributory Pensions Acts.

(7) Including the elder or eldest child for whom no allowance is payable.

(8) Average of twelve months March 1966 to February 1967.

(9) The estimates shown for January 1970 for administrative reasons have not been based on 'claim papers in action'.

*Average of five weeks.

(¹) Pension age means 65 years for men and 60 years for women.

(²) Some of the supplementary pensions provide for the requirements of a household with more than one pensioner.

(³) Includes a small number of persons over pension age.

(⁴) From November 1967, the method of compiling the statistics of the breakdown of the number of supplementary benefits has been revised.

Permanent grassland: Total	12,328	12,195 ⁽¹⁵⁾	12,348	12,285				
For mowing ⁽¹⁰⁾	2,998	2,872	2,938		3,880	3,933	3,787	3,958
For grazing	9,330	9,323	9,410					
Rough grazings (including common rough grazings)⁽¹⁶⁾	17,639	17,537	17,568					

⁽¹⁾ Excluding agricultural holdings of one acre or less in extent in Great Britain. In Northern Ireland excluding holdings of less than one acre. ⁽²⁾ Excludes Scotland ⁽³⁾ Beans only. ⁽⁴⁾ Gross production figures are shown. ⁽⁵⁾ Includes some production diverted from green peas. ⁽⁶⁾ Weight in pod. ⁽⁷⁾ Shelled weight. ⁽⁸⁾ Excludes rape grown for oilseed in England and Wales. ⁽⁹⁾ England and Wales only. ⁽¹⁰⁾ Production figures relate to hay only. The production of hay in England and Wales is calculated from the area cut for hay and actually harvested and does not include the area mown for silage, drying or seed; the production of hay in Scotland and Northern Ireland is calculated from the area cut for hay only and does not include grass mown for silage or drying. ⁽¹¹⁾ Clover and rotation grasses. ⁽¹²⁾ Includes lucerne. ⁽¹³⁾ Includes hay from permanent grass in Scotland. ⁽¹⁴⁾ Includes hay from lucerne. ⁽¹⁵⁾ Excludes some 47,000 holdings in England and Wales which make a negligible contribution to agricultural output. This affects comparison with permanent grassland acreage figures in previous years. ⁽¹⁶⁾ Includes the total area of deer forest land in Scotland.

(¹) Mines operated by the National Coal Board which account for about 99 per cent of the total output. Changes in the basis of the recorded figures have occurred from time to time making comparisons difficult. The figures given in this table have therefore been adjusted where necessary to conform throughout to the current definitions given in the *Supplement of Definitions and Explanatory Notes*.

(²) Week ended 30 December 1967 is omitted from the figures.

* Average of five weeks.

(1) Excluding quantities used for production of steam for sale. In 1969, 252,000 tons of coal and 17,000 tons of oil were used for that purpose.

(2) Including generation by oil engine, refuse destructor, and waste heat.

(3) Including purchases from industrial producers whose generation is shown in Table 59, and net imports from France.

(4) Annual figures relate to the maximum load occurring near the end of the year or early in the following year.

(¹) Excluding the fuel industries which produced:

Coal mines (1968/69)
Gas works (1968/69)
Mineral oil refining (1969)

Million kilowatt hours

Source: Ministry of Technology

These industries accounted for an average weekly production of about 33 million kilowatt hours in 1968 as compared with 327 million kilowatt hours produced weekly in 1968 by the industries included in the table.

(²) Electricity supplied by United Kingdom Atomic Energy Authority prototype reactors to the public electricity supply system.

* Average of five weeks.

⁽¹⁾ Excluding natural gas.

Source: Ministry of Technology

⁽²⁾ From January 1968 agency pick-up sales are included under dealers, and not as previously under commercial consumers. These sales amounted to 5.4 thousand tons (5, 4 and 3 star) and 5.6 thousand tons (other) in January 1968.⁽³⁾ From January 1967, all finished motor spirit with an octane number (research method) not less than 94. The figures relate to Premier grades prior to January 1967.⁽⁴⁾ The figures relate to Standard grades prior to January 1967. ⁽⁵⁾ Provisional.Analysis of inland deliveries of gas/diesel and fuel oils⁽¹⁾

(1) The iron content of home produced iron ore is about 28 per cent and of imported iron ore about 60 per cent.

(2) Excluding consumption of refined and cylinder iron made otherwise than in blast furnaces.

(3) At steel works, steel foundries and blast furnaces. (4) At steel works and steel foundries.

(5) Ingots, metal for continuously cast blooms, billets and slabs, and metal for castings.

(6) Stocks at producers' works of alloy and non-alloy ingots, semi-finished and finished steel in terms of ingot equivalent.

(7) Including imports (and material for manufacture of drop forgings) but excluding deliveries of all materials for intra-industry conversion. (8) 53 week period.

(9) Revised figures due to re-measurement of stocks. *Average of five weeks.

⁽¹⁾ Characteristic products of industries in Order VI of the *Standard Industrial Classification 1958*, except ordnance and small arms. Excluding deliveries by the smallest firms which are estimated to be about 2 per cent of the total. In general, spare parts supplied by manufacturers of complete machines are included with these machines, but parts, other than those separately specified, supplied for assembly by makers of complete machines are included in the heading for sub-contract sales and components.

⁽¹⁾ Includes naval vessels registered as merchant ships.

⁽²⁾ Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.

⁽³⁾ The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on completion.

⁽⁴⁾ Vessels are shown for export if they are for other than U.K. registration.

⁽⁵⁾ Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.

⁽⁶⁾ Modifications and cancellations exceed new orders for the period.

(¹) Wool, hosiery (and other knitted goods), made-up clothing and the spinning, weaving and merchant converting sections of the cotton and man-made fibre industries. (²) The index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry and not output of that particular type of garment. (³) These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations.

(¹) Fabrics in million square yards. From January 1967 the figures include non-wool fabrics woven in the wool textile industry. (²) All fibres (other than virgin wool) used in woollen spinning and felting, and hair used in the making of tops. (³) From January 1969 includes the small quantity of semi-worsted yarns which previously was divided between the woollen and worsted yarn headings. (⁴) Excluding stocks held by farmers. Annual figures are at 31 August.

(1) 1 metric ton=0.63 metric tons paper equivalent (air dry weight).

(2) Including home-grown pulpwood, wood waste, chippings and rejected pitprops.

(3) Including woodpulp for cellulose wadding.

(4) For the manufacture of rayon and transparent cellulose film.

* Average of five weeks.

⁽¹⁾ The figures relate to schemes mainly over 5,000 sq. ft. ⁽²⁾ For all projects (new buildings, extensions to existing premises and buildings converted to industrial use) for which industrial development certificates were issued. ⁽³⁾ These regions take in the places designated as Development areas under the Industrial Development Act, 1966: the aggregate figures for the Development areas are shown separately. ⁽⁴⁾ The area of industrial building has, since the introduction of the Industrial Development Act in August 1966, been extended to include all ancillary space for storage, canteens, etc. Prior to that date ancillary space was not counted, except in Scotland, Wales and the Northern region; the figures since that date on the old basis of measurement are estimates of the area which would have been approved under the pre-August 1966 definition. ⁽⁵⁾ For manufacturing industry only (new buildings and extensions to existing premises).

(1) Including the Commission for the New Towns and new town development corporations; in Scotland, the Scottish Special Housing Association and, in Northern Ireland, the Northern Ireland Housing Trust.

(2) Including housing associations, other than the Scottish Special Housing Association and the Northern Ireland Housing Trust, and houses provided or authorised by government departments for the families of police, prison staff, the armed forces and certain other services.

(3) Figures for England and Wales relate to the period April 1945 to December 1954.

(¹) Excluding building which is wholly financed from private sources. (²) From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings 'Primary and secondary' and 'Special schools'. (³) Figures for England and Wales include the value of projects for which specific approval is not required. (⁴) Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (⁵) Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain minor projects for which specific approval is not required. (⁶) The Scottish figures of projects approved refer to approval at the sketch plan stage, which might be some six to twelve months before the start of construction. (⁷) The Scottish figures of 'Under construction' and 'Completions' are based on the tender costs. The 'Under construction' and 'Completions' figures exclude the value of approved school projects which in 1969 amounted to £1,246,000 and £406,000 respectively.

(1) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.

(2) Including new schools brought into partial use before completion.

(3) Extensions, alterations, remodelling and war damage repairs.

(¹) The railway figures are derived from statistics compiled by the British Railways Board and from 1969 include estimated ton mileage of freight carried by B.R.B. on behalf of Freightliners Ltd. and National Carriers Ltd. The annual figures for road transport are estimated from periodic sample enquiries, traffic count data, trends in the goods vehicle population and changes in industrial output. The monthly road transport figures are estimated from traffic count data. (²) Not over 30 cwt. unladen weight.

⁽¹⁾ Passenger journey figures for 1969 and subsequently are no longer strictly comparable with those for previous years, due to the transfer from British Railways to London Transport Railways of the Bow to Upminster line on 1 January 1969. This accounts for about 2½ million journeys per period. In addition the three stages of the new 10½ mile Victoria Line were opened to traffic commencing respectively on 1 September and 1 December 1968 and 7 March 1969.

⁽²⁾ The four-weekly averages for each year are computed from calendar year totals.

⁽³⁾ The reduced fares category includes statutory day returns in the London area.

	July	1,165

(1) The parity of sterling changed from £1 to \$2.80 to £1 to \$2.40 on 18 November 1967.

(2) The end-June 1969 figure includes 14 of British government securities previously not classified to this series and treated as portfolio investment liabilities. This amount is not treated as a capital flow in the balance of payments item 'balances (gross) of sterling area countries' shown in Table 138. Area levels are rounded independently of the total.

(3) Including Rhodesia up to the end of 1965 and Burma up to the end of 1966.

(4) Including Rhodesia from the beginning of 1966 and Burma from the beginning of 1967.

(1) In addition to its lending, the National Loans Fund meets the interest and management charges of the national debt. To the extent that these charges are not matched by interest received on its own lending and by profits of the Issue Department of the Bank of England, the Consolidated Fund meets the difference. The surplus on the Consolidated Fund is paid to the Fund, leaving the difference between that and its net lending as the Fund's financing requirement. (2) Electricity Council, North of Scotland Hydro-Electric Board and South of Scotland Electricity Board. (3) British Overseas Airways Corporation, British European Airways Corporation and British Airports Authority. (4) Including loans to harbour authorities. (5) Loans under the Ship Credit Scheme and to the Shipbuilding Industry Board, housing associations and building societies. (6) Loans to Votes for U.S. military aircraft, married quarters for armed forces and Town and Country Planning compensation; and lending to Redundancy Fund, Land Commission and Northern Ireland Government. (7) Calculated on the new basis for purposes of comparison.

(¹) This is equal to Exchequer borrowing and special transactions (net) less receipts from extra-Exchequer funds, etc. It is also equal to the amount the central government borrows less any increase (or plus any decrease) in its holdings of gold and currency reserves.

(²) A negative item represents a surplus, a positive item a deficit.

(³) The cumulative monthly figures do not agree precisely with the quarterly figures because of adjustments, incorporated in the latter, for accrued interest on National Savings and for issued coin.

(⁴) Calculated on the new basis for purposes of comparison.

(⁵) Adjustment for redemption of government guaranteed stock.

(⁶) Including transfer of surplus of the death duties surrendered securities account.

(⁷) Including surrender of final balance on the local loans fund.

(⁸) Consolidated Fund liability for service of the National Debt; balance carried over until March.

(¹) Including some land tax, mineral rights duty, excess profits duty and special contribution, not included under separate headings; these amounted to approximately £0.2 million in each of the financial years 1965/66 and 1966/67. Including profits tax, excess profits tax and excess profits levy from April 1969. (²) Payments due in certain cases where the overseas rate exceeds the corporation tax rate (Section 84, Finance Act 1965). The figures relate to calendar months. (³) The yearly totals include revisions which cannot be allocated to particular monthly periods.

(⁴) Including receipts from the 10 per cent regulator on most Customs and Excise duties and on purchase tax, operative (i) from 21 July 1966 to 11 April 1967 and (ii) from 23 November 1968 to April 1969. (⁵) The figures given do not include receipts from Northern Ireland, as the duties apply only in Great Britain. Separate duties on betting have been imposed by the Government of Northern Ireland. (⁶) Including receipts from the temporary charge on imports from October 1964 to November 1966 less export rebates. (⁷) Includes arrears in respect of earlier years. (⁸) In September repayments began to be brought to account at an earlier stage. Without this change, this figure would have been -7.0. (⁹) Provisional

⁽¹⁾ Figures supplied by the Bank of England and rounded to the nearest £5 million.⁽²⁾ Total deposits less (i) balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland and (ii) items in transit between offices of the same bank.⁽³⁾ Comprising (i) Coin, notes and balances with Bank of England, etc. (excluding special deposits), (ii) Money at call and short notice; (iii) Bills discounted, which include re-financeable export credits.⁽⁴⁾ Excluding items in transit.⁽⁵⁾ Excluding advances to nationalised industries (including, from 28 July 1967, the British Steel Corporation).⁽⁶⁾ Some changes have been made in the accounting procedures of the clearing banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced London clearing banks' gross deposits by about £350 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this affects both deposits and the ratios. From January 1970, the investment figures are affected by the revaluation of investments following full disclosures of profits. This produced an upward revision of some £75 million.

(1) Total deposits less items in transit between offices of the same bank.

(2) Comprising (i) Coin, notes and balances with Bank of England (excluding special deposits); (ii) Balances with other banks etc.; (iii) Money at call and short notice; (iv) Bills discounted.

(3) Liquid assets include, and Advances exclude, re-financeable export credits.

(4) Deposits called under the Special Deposits Scheme and not at the banks' free disposal.

(5) Some changes have been made in the accounting procedures of the Scottish banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced Scottish banks' gross deposits by over £60 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this affects both deposits and the ratios. From January 1970 the investment figures are affected by the revaluation of investments following full disclosure of profits. This produced an upward revision of some £5 million.

⁽¹⁾ Figures are not strictly comparable throughout owing to changes in the composition of the clearings. From 12 January 1968 provincial clearings, with the exception of the afternoon clearing at Liverpool, were abolished and transferred to General clearing. From 1 July 1969 all figures are worked on a 5 day week.

⁽²⁾ Average of Wednesdays. Includes Bank of England notes held by the Scottish and Northern Ireland Banks as cover for their note issues in excess of the authorised circulation.

⁽³⁾ Months: average of Saturdays in the consecutive four-week periods as published in *The London Gazette* or in *The Belfast Gazette*, with as close a correspondence as possible to the calendar months. Years: average of the thirteen published figures.

⁽⁴⁾ Excluding coin in the Bank of England, Issue Department.

⁽⁵⁾ Total notes and coin outstanding, less notes and coin held by the Bank of England, Banking Department, and by the London clearing banks, Scottish banks and Northern Ireland banks.

⁽¹⁾ The annual figures are averages of the figures for February, May, August and November.

Source: Bank of England

⁽²⁾ Included in Other manufacturing in Northern Ireland.⁽³⁾ The February 1968 figures are affected by the revaluation of foreign currency advances after 18 November 1967, and by the inclusion of several new contributors. Together, these accounted for some £260 million of the increase over the quarter in total advances (U.K. residents+£60 million and overseas residents+£200 million).

(¹) Derived from yield-maturity curves fitted by computer; an outline of the method used was given in the *Bank of England Quarterly Bulletin* for March 1967. Taxes are ignored. The yearly figures are averages of end month yields. The monthly figures are averages of Wednesdays.

(²) Average of working days, based on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored.

(³) Averages of daily figures calculated from middle market closing prices.

(⁴) Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.

(⁵) From January 1963 stocks with coupons below 4 per cent were omitted from the calculations and from January 1966 the limit was 5 per cent. The break in January 1966 causes a drop of 0.06 per cent in the short-dated series but does not affect the medium or long-dated series.

(¹) The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to April 1967, published in the *Ministry of Labour Gazette* for August 1967.

(²) From and including October 1967 includes (a) dock workers previously on daily or half-daily engagements and (b) postmen.

(³) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 161 which cover all industries.

(1) The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages regulation orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the *Employment and Productivity Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term 'Manufacturing industries' covers all industries included in Orders III-XIX of the *Standard Industrial Classification, 1968*.

(1) The figures relate to changes in basic full-time weekly rates of wages or minimum entitlements and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes included are those determined by national collective agreements or by statutory wages councils or boards.

(2) The monthly totals in the columns headed 'Increase' and 'Decrease' relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed 'Net increase,' is therefore the overall net increase for the year.

(3) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

(¹) The weighting of the monthly index is based on the pattern of trade in 1961. The method of calculating the import and export unit value index was explained in the *Board of Trade Journal* for 13 September 1963.

(²) Export unit value index as a percentage of the import unit value index.

(³) This new index replaces the former time charter and voyage charter index numbers.

(1) The Cost of Living Advisory Committee recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121.4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

(2) These are the weights which would have been used in 1968 if expenditure on meals out had been treated as in previous years (see footnote(1)). The weights actually used are given in the following line.

(1) Based on manufacturers' list prices.

(2) The market-price series are based on prices before the addition of subsidies paid to producers under the Cereals Deficiency Payments Scheme and Fatstock Guarantee Scheme.

(3) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies paid to producers; those for milk and eggs on prices paid to producers by the marketing boards for these commodities; and that for potatoes on producer prices, sometimes 'supported' by the Potato Marketing Board. (4) Figures to June 1969 have been adjusted to final deficiency payments.

(5) Maincrop potatoes only.

(6) Based on guaranteed minimum prices to producers at packing station until March 1966, then to March 1970 on B.E.M.B. prices to producers under the Egg Contract Schemes. Thereafter based on minimum producers prices as in years prior to March 1966.

(7) Based on net prices to farmers after deduction of subsidy. (a) Provisional.

(¹) Daily mean air temperature at sea-level.

(²) To convert °Centigrade into °Fahrenheit: multiply by 9, divide by 5, and add 32.
°Fahrenheit into °Centigrade: subtract 32, multiply by 5, and divide by 9.

(³) 1 inch = 25.400 millimetres.
1 millimetre = 0.0394 inches.

National Income and Expenditure 1970

The *National Income and Expenditure* Blue Book, prepared by the Central Statistical Office, contains detailed estimates of national product, income and expenditure for the United Kingdom. The 1970 edition covers mainly the years 1959-1969. Information is included on personal income and expenditure, company income and its appropriation, public corporations, central government and local authorities, investment, output and expenditure at constant prices and other subjects. A detailed description of the compilation of the estimates is given in *National Accounts Statistics: Sources and Methods*, prepared by the Central Statistical Office (Studies in Official Statistics, No. 13).

United Kingdom Balance of Payments 1970

This publication (the Pink Book), prepared by the Central Statistical Office, is designed to be a standard reference for balance of payments statistics extending over a long run of years. It contains tables showing the general balance of payments accounts for the United Kingdom together with a detailed analysis of many of the items included. These tables are followed by an Annex covering six topics illustrating certain aspects of the balance of payments which do not emerge from the standard form of presentation. The Pink Book also includes a detailed description of the definitions, sources and methods employed in compiling the figures, notes on the reliability of the estimates and references to the main international publications giving balance of payments statistics for other countries.
